PROFESSIONAL SUMMARY

Results-driven Physicochemical Analyst with over 3 years of experience at a leading pharmaceutical company (Kalbe Group). Strong track record in quality control from raw materials to finished products, combining conventional testing with advanced instrumental analysis (HPLC, Spectrophotometer UV-Vis, GC, ICP-OES, FTIR, AAS). Recognized for analytical sharpness and for continuously driving operational efficiency; successfully led a Quality Control Circle (QCC) initiative that cut analysis lead time by up to 67% and delivered cost savings of IDR 59.6 million per year while strictly complying with GMP, GLP, and ISO 17025. Highly committed to continuous learning, with a career focus on analytical method development and validation to ensure consistent product quality and full regulatory compliance.

WORK EXPERIENCE

QC Physicochemical Analyst, **Kalbe Consumer Health (KCH), Kalbe Group** *Jul 2022 – Nov 2025*

- Tested raw materials, stability products, and finished products using HPLC, FTIR, TLC, ICP-OES, Spectrophotometer UV-Vis, AAS in accordance with SOPs.
- Transferred and validated test methods with R&D for routine testing.
- Troubleshot lab instruments, including Waters Alliance HPLC and ICP-OES, and completed in-house vendor training.
- Calibrated dissolution testers routinely using USP standard tablets.
- Standardized working standards against reference standards.
- Assist Supervisor in developing Corrective and Preventive Actions (CAPA) in response to Out of Specification (OOS) results, ensuring thorough investigation and product integrity.
- Managed reagent stock and followed chemical handling and storage procedures.
- Led a 10-member Quality Control Circle (QCC) team in Finished Goods (2024–2025), standardizing shelf-life studies for standard solutions and mobile phases.
- Cut pre-testing time for bulk samples by 67% (target: 60%) and raised daily bulk release capacity by 50%.
- Saved IDR 59.6 million per year in analysis costs and prevented packaging line stoppages on three priority products (confirmed with Production, PPIC, and QA).
- Suggested process improvements through the Suggestion System.

Research Assistant (Scientific Writer), Universitas Islam Sultan Agung (UNISSULA) *Apr 2025 – Jun 2025*

- Assisted in drafting and structuring a Master's thesis proposal in Biomedical Sciences, focused on experimental models of dermatology and photoaging.
- Conducted literature reviews from peer-reviewed sources on the efficacy of colloidal oatmeal, the effects of UV-B radiation, and inflammatory biomarkers (IL-1β and MCP-1).
- Edited, formatted, and proofread scientific manuscripts.

R&D Analytical Development Analyst (Intern), **Kalbe Consumer Health (KCH), Kalbe Group** *Jan 2022 – Apr 2022*

- Analyzed raw material, stability study, and trial drug samples physically and chemically, using conventional and instrumental methods (HPLC, UV-Vis spectrophotometer, TLC, Dissolution Tester, Disintegration Tester, etc.).
- Conducted analytical method trials and assisted in the development, validation, and modification of analytical methods for new and existing products.
- Supported analytical method transfer to QC in compliance with Good Documentation Practices (GDP).
- Assisted in preparing comprehensive analytical reports to support product quality and regulatory requirements.

EDUCATION

Bachelor of Pharmacy (S.Farm), **Binawan University** *Sep 2022 – Sep 2026*

- Thesis: "Comparison of Maceration and Ultrasonic-Assisted Extraction (UAE) on the Antioxidant Activity of Red Pelawan (*Tristaniopsis merguensis* Griff.) Leaf Extract".
- Summer School "Innovative Drugs", Sechenov University (I.M. Sechenov First Moscow State Medical University), Institute of Pharmacy, Moscow, Russia (2025).
- Awarded "The Most Outstanding Team" at the "Discover Jiangsu" Summer International School (Traditional Chinese Medicine/TCM and herbal plant culture program), China Pharmaceutical University, Nanjing, China (2023).

Analytical Chemistry (Vocational High School), **SMK-SMAK Bogor** *Jul 2018 – Jun 2022*

- Competency Certificates (LSP-P1 SMAKBO): Gravimetry, Volumetry, Organoleptic Testing, Proximate Analysis, UV-Vis Spectrophotometry, AAS, Microbiology, and Electrochemistry (2018 – 2021).

- Delegate participant, National Chemistry Olympiad (OKN) 2021 “Develop Chemical Knowledge to Become the Golden Generation”, organized by the Chemistry Student Association (KMK), Faculty of Mathematics and Natural Sciences, Universitas Gadjah Mada.
- Participant, Dual System Education (PSG) Program (2019 – 2022).
- Class rank certificate (2018 – 2019).
- Mentor, Basic Chemistry Study Group (2018).

SKILLS & COMPETENCIES

Analysis & Laboratory: Testing of Raw Materials, Intermediate & Finished Products; Method Validation & Transfer; Instrument Calibration & Troubleshooting; Working Standard Standardization; Reference Standard Suitability Testing

Instruments: HPLC (Waters Alliance), Gas Chromatography (GC), AAS, FTIR, ICP-OES, UV-Vis Spectrophotometer, TLC UV Scanner, Dissolution Tester, Disintegration Tester, Karl Fischer, Polarimeter, pH Meter, Centrifuge

Quality & Compliance: GMP, GLP, ISO 17025, Pharmacopeia, OOT/OOS & Deviation Investigation, CAPA, Good Documentation Practices (GDP), Audit Documentation & Quality Certification, Chemical Storage & Safety Procedures

Continuous Improvement & Leadership: Quality Control Circle (QCC), 8 Steps Problem Solving, 7 QC Tools, Root Cause Analysis, Risk Priority Number (RPN), SWOT Analysis, Suggestion System (SS), Cross-Functional Team Leadership

Systems & Software: Waters Empower (HPLC data system), Oracle (internal data system), Microsoft 365 (Word, Excel, PowerPoint, Outlook), Google Apps, LibreOffice, Google Workspace

Languages: Indonesian (native); English — B2 Upper Intermediate (EF SET)

Interests: Editing and reading

CERTIFICATIONS & AWARDS

- Basic R&D in the Pharmaceutical Industry (Cosmetics), Ioda Academy (2026)
- English Certificate (EF SET): Score 55/100, equivalent to B2 Upper Intermediate (CEFR); Reading and Listening at C1 Advanced (2026); verification: cert.efset.org/dS81Ro.
- Top 10, QCC Convention, Kalbe Consumer Health: project team leader, “Reducing Pre-Testing Time of Bulk Drug Product Samples by 60%” (2025)
- Waters Alliance HPLC System Troubleshooting, Kalbe Consumer Health (2025)
- Good Distribution Practice Webinar, PT Elpharma Multi Solution (2024)
- International Pharmacy Seminar and Workshop (IPSW), Jakarta Global University, 4 SKP (2023)
- National Pharmacy Seminar “Cosmetics without Harm”, Jakarta Global University, 3 SKP (2023)
- BNSP Competency Certificate, Analytical Chemistry Level III, LSP-P1 SMAKBO, Reg. No. LAB.091.000118 (2022)
- All-Round Laboratory Technician Certificate Level III, VAPRO/BEPRO Netherlands (CREBO 91730) (2022)

PUBLICATION

- Kurnia Dewi Budi Cantika, Anisa Sinta Nabila, and Difa Afiyah Sucisatryani. “Effects of Yeast Weight and Starter Volume on The Percentage Kepok Banana Based Bioethanol.” *Helium: Journal of Science and Applied Chemistry*, Vol. 1, No. 2 (2021), pp. 63–68, Universitas Pakuan, Bogor. DOI: 10.33751/helium.v1i2.4541.

VOLUNTEER EXPERIENCE

Content Developer (Volunteer), Yayasan Pecinta Anak Yatim (PAY) *Dec 2024 – Feb 2026*

- Managed end-to-end content production, from ideation, shooting, and editing to publishing visual content (photos, videos, Reels/TikTok), using storytelling to boost engagement.
- Designed flyers, posters, and Instagram feeds consistent with the organization’s brand identity.
- Grew organic reach to up to 13,000 viewers within 2 weeks.

NON-FORMAL EDUCATION & DEVELOPMENT

7th Generation Scholarship Recipient, Yayasan Bakti Asih Sesama (BAS) *Mar 2021 – Nov 2021*

- Completed a 6-month thematic development program.
- Wrote a scientific essay on environmental themes and a popular article.

Chemistry Course, RY Course *Jan 2020 – May 2020*

- Practicum Tutor for Instrumental Analysis & Microbiology.
